

# TIF - Phase 1 Learning Events

Funding aims to tackle inequalities in activity levels by reaching those most in need as a result of the impact of Covid-19. Funding has been awarded to ensure organisations can continue to operate; or provide new activity based on demand of the communities they work in.

Wesport received 68 Expressions of Interest for the fund requesting £198,000

## 35 Projects funded in phase 1 of TIF supporting:

- 25% Black, Asian, and other Minority Ethnic Communities
- 18% Disabled People
- 38% Lower Socio-Economic Groups
- 12% Long Term Health Conditions

## Key Themes

Mental Health has been noted across almost every project. Significant in those who are isolated. Important to continue interaction.

Phase 1 has enabled the groundwork to be laid with communities. Capacity building in our communities is key for longer term success.

Digital Access, delivering online worked but didn't replace contact. What have we learnt from this leading to Autumn / Winter?
